

Disposable Products. Indisposable Service.™

March 16, 2015

To our Valued Customers,

After 66 years of operating out of Coatesville, PA, Royal Paper is happy to announce that we are pulling up our roots and moving into a newly-constructed facility just 10 miles away in Exton, PA. Located on 22 acres, the modern, new facility will be the corporate headquarters and primary location for manufacturing, converting, warehousing, and office space.

This communication is to inform you that, in order to complete the move, Royal will be closing for a 4 day period. During that time, our shipping department will be closed.

The specific dates have not yet been confirmed; they are contingent on township approvals. We do know that it will occur **during the first three weeks of May 2015**, and we want to provide our customers with as much notice as possible of this schedule and urge everyone to plan accordingly.

Firm closing dates will be provided along with additional updates and information as soon as they are available. If you have concerns, please contact your Regional Sales Manager immediately so we can work to resolve them as quickly as possible.

Thank you for your continued support of Royal Paper Products, Inc.

David Milberg  
Chief Executive Officer  
Royal Paper Products, Inc.
