

April 2016

**All Thermal Register Rolls BPA-Free**

Dear Valued Customer,

As you know, Thermal Register Roll tape is made from quality heat sensitive paper that produces a black image from a thermal printer and fits many common credit, debit and POS machines. It's used in ATMs, POS printers and cash registers and is great in kitchen printers to generate an itemized receipt of the customer's charges.

In order to assist with the thermal transfer, many manufacturers in the past used a coating called Bisphenol A (BPA) to aid in print clarity. According to the U.S. Food and Drug Administration (FDA), BPA is safe, however, some other reports doubting the safety of the material have led to a trend in our industry to remove it from products due to potential health concerns.

Royal has taken steps to now provide only BPA-Free Thermal Register Rolls to the market. All of the following are BPA-Free:

Item Number	Description	Size	Pack	Length
<b>RR7225</b>	Thermal 1 Ply Register Roll	2.25"	1/40	200'
<b>RR7225-60SP</b>	Thermal 1 Ply Register Roll	2.25"	1/50	60'
<b>RR7225SP</b>	Thermal 1 Ply Register Roll	2.25"	1/48	80'
<b>RR7313</b>	Thermal 1 Ply Register Roll	3.13"	1/30	200'
<b>RR7313-230SP</b>	Thermal 1 Ply Register Roll	3.13"	1/50	230'
<b>RR8313</b>	Thermal 1 Ply Register Roll	3.13"	1/30	200'

We stand committed to providing our customers with the best performing products on the market that meet the needs of their intended application.

Thank you for your continued support!

Sincerely,

Nick Levandusky  
Director of Marketing
